

## 4 Can & Glass Insert Instructions 1 of 2

With the recycled  
(less smooth) side  
upwards, fold in the  
side flaps

Turn the insert over, and fold the 3  
creases to create an upwards V

Repeat on both sides

## 4 Can & Glass Insert Instructions 2 of 2

Fit the insert inside the outer box (smooth side up)  
The side flaps create a raised base for both end sections. And the V fold creates internal dividers

If the box is being used for 330ml cans fold up the internal tabs in the side pockets.

We hope these instructions help you to construct the insert, if you need a more detailed guide please email

[sales@beerboxshop.co.uk](mailto:sales@beerboxshop.co.uk)

And we can email a short video to you

The centre pocket has pre-cut fold up section on either side can be used to secure different glass sizes
